

JOURNAL
OFFICE OF LEGISLATIVE COUNSEL

Monday - 6 March 1961

25X1

25X1

2. [redacted] Met with Mr. Allen Pierce, on the staff of the Joint Committee on Defense Production, and left with him ORR's paper on "The Comparative Status of U.S. and USSR Machine Tool Industries", (classified SECRET). Pierce was very much interested in the study and was quite surprised to note the Soviet figures in the study. He said this type of information was very helpful to the Committee which has a watchdog function over the Executive departments which have responsibilities in the defense production and mobilization area. He was very pleased to have a visit from an Agency representative and said he might like to call on us for similar papers in the future. He gave me copies of the Committee's 10th annual report which will be referred to [redacted] ORR, for information. (It is noted that Al Pierce has a TS clearance from the Department of Defense)
